

Products available from ASSDA

publications

Australian Stainless 2005 Reference Manual

More than 200 pages of stainless steel technical information.

- > Properties and Performance
- > Grade Selection
- > Surface Finishes
- > Design and Fabrication
- > Product Specifications
- > Buyers' Guide

Available in Book or CD format. CD includes electronic PDF of the 2005 Reference Manual and bonus Stainless Steel Stock Guide.

Australian Stainless Magazine

<download free from www.assda.asn.au>

- > Eight page, full colour quarterly magazine.
- > Showcases innovative Australian fabrication and aims to assist specifiers and end users of stainless steel.
- > Circulation of over 7,500 subscribers.
- > Applications are featured on ASSDA website - www.assda.asn.au

Architects' Guide to Stainless Steel

- > A 200 page publication covering design, specification, manufacture and maintenance of stainless steel architectural products, focussing on the more-commonly used grades.
- > Numerous case studies from leading architects.
- > Lavishly illustrated to give architects and engineers a more comprehensive reference to this versatile material.

Blue Book: Code of Practice

Code of Practice for the Fabrication of Stainless Steel Plant and Equipment, prepared by the New Zealand Stainless Steel Development Association.

The Blue Book is intended for use as part of a tender or contract for fabrication and functions as a specification. It applies to any stainless steel fabrication and is valuable in food equipment manufacturing.

Stainless Steel Stock Guide

<download free from www.assda.asn.au>

The Stainless Steel Stock Guide (Edition 3 - April 05) is a generic stock list of products reported to be regularly available ex stock. Essential resource for anyone designing in stainless steel.

Contents include: Coil, Sheet and Plate, Bar, Wire, Pipe and Tube and Safety Flooring Products.

Stainless Steel Technical FAQs

<download free from www.assda.asn.au>

Frequently asked questions about stainless steel.

- > Galvanic/Dissimilar Metal Corrosion
- > Cleaning Your Indoor Stainless Steel
- > Magnetic Effects of Stainless Steels

Stainless Steel Technical Bulletins

<download free from www.assda.asn.au>

- > Stainless Steel Threaded Fittings
A four page technical bulletin for use in educating specifiers and end users of low and high pressure fittings.
- > Coastal Corrosion — Stainless Steel Teastaining
What is tea staining, contributing factors, grade selection, key recommendations. Minimise risk through correct specification.
- > Stainless Steel Hydrofluoric Acid Scheduling
Sets out changes to the National Drugs and Poisons Schedule and their impact on the stainless steel industry.
- > Stainless Steel in the Airspace of Indoor Pools
Explains stress corrosion cracking and preventative measures available to indoor pool owners.

training

Stainless Steel Specialist Course

A stainless steel-specific correspondence course available in Australia, providing a standard level of knowledge and qualification across the industry.

Features 16 subjects covering virtually every aspect of stainless steel.

Recommended for all stainless steel industry participants, from senior management to shop floor workers.

Choose from two levels: intermediate certificate (min. 5 subjects) and full certificate (min. 12 subjects). Receive a free Reference Manual with your enrolment.

ASSDA Seminar Proceedings

Presentations from past ASSDA seminars. See product order form.

Educational DVDs and Videos

Excellent presentations for educational purposes.

- > Stainless steel (EURO INOX)
- > Stainless steel — The effective solution (ICDA)
- > Handling of stainless steel in the warehouse (SASSDA)

accreditation

ASSDA Accreditation is an industry-based scheme designed to establish a benchmark for stainless steel fabricators to become recognised providers of a standardised level of quality.

ASSDA Accredited Fabricators are fabricating companies and individuals that hold a common understanding of what are successful technical practices when fabricating stainless steel.

The Stainless Steel Specialists Register lists those businesses which are competent, for defined business functions, in the supply of semi-finished materials, and/or design, fabrication and installation of stainless steel structures and equipment.

View the Stainless Steel Specialists Register - www.assda.asn.au
